GIT WORKSHOP

SCHEDULE

Engineering and Computer Science Interest Group
URI Student ACM Chapter

6 March 2013

WHAT IS ECSIG?

GIT
WORKSHOP

ECSIG

LOGISTICS

The Engineering and Computer Science Interest Group (ECSIG) is the student ACM Chapter at URI. There are a few things that we like to do:

- Projects
- Seminars
- Workshops (like this one)
- Special Events (movie nights, game nights, programming days)

We're always looking for new members! Come chat on IRC on irc.ecsig.com or on the forums at www.ecsig.com/forums.

A few things to remember during the workshop:

- Still no food/drinks in the lab!
- Let us know if you have a question, either during the presentations or during the practical
- Short survey
- Have fun!
